Practices

Technology & Data  
Commercial Contracts &  
Outsourcing  
Intellectual Property

Emma specialises in contract law assignments relating to technology, R&D, intellectual property and data and advises clients on these topics. Within IP law, she has a particular focus on patents. She also supports clients with their ICT projects and provides advice on data protection matters. Having worked as an in-house counsel in the field of innovative research for several years, Emma has extensive experience in supporting a wide range of research and commercial projects. In addition to her law degree, she holds an MSc (Econ. & BA) degree specialising in IP law.

Educational background

Master of Science (Economics and Business Administration), Hanken School of Economics (2024)  
Master of Laws, University of Helsinki (2013)  
Studies at University of Sheffield (2010-2011)
